Stop thrusting & Turn Off
Tap to stop thrusting & hold for 3 seconds to turn off.

One tap to change thrusting pattern

One tap to change stroke speed

Changing setting

Cleaning

a) After Solace has stopped, press button B for 3 seconds to let the head of the inner holder come out.

b) Gently press both sides to pull out the inner sleeve and inner holder completely.

c) Only the inner sleeve and the sleeve holder can be washed with water. After, dry them thoroughly.

d) Put the inner sleeve back into the sleeve holder and make sure the plastic ring sits in the groove.

e) Insert the inner holder back into the main body. You will hear a click when it is stored correctly.

Desk mount

a) Attach the desk mount to the main body by turning screws (X) clockwise.

b) Mount the main body to the desk by turning screw (Y). Maximum table thickness for mounting - 5.5 cm.

c) Adjust the angle* by loosening or tightening screw (Z).
*To avoid jamming when the thrusting cup is facing upwards, increase stroke speed.

c) Only the inner sleeve and the sleeve holder can be washed with water. After, dry them thoroughly.

d) Put the inner sleeve back into the sleeve holder and make sure the plastic ring sits in the groove.

e) Insert the inner holder back into the main body. You will hear a click when it is stored correctly.
